Bitcoin Suisse

Bitcoin Suisse stands for premium crypto financial services for institutional clients, crypto foundations, family offices, asset managers, and high-net-worth individuals. Established in Zug in 2013 by crypto-native experts, Bitcoin Suisse today unites more than 200 professionals across Switzerland, the European Economic Area, the United Arab Emirates and Bermuda.

(Senior) Legal Counsel

You will have the following responsibilities

Based in our Bratislava office, you will support Bitcoin Suisse (Europe) AG as it expands its regulated crypto-asset business across the EEA. You will advise management and business teams on MiCAR, DORA, Liechtenstein and EU financial-market requirements, product launches, cross-border market entries and commercial arrangements. This is a broad, hands-on role for a lawyer who enjoys combining regulatory analysis with practical implementation in an international, technology-driven environment.

- Advise Bitcoin Suisse (Europe) AG's management and business functions on MiCAR, DORA, MiFID II and relevant EEA regulatory requirements
- Support the legal structuring, review and launch of crypto-asset services, including trading, custody, staking, transfer services and related client journeys
- Draft, review and negotiate client agreements, product terms, commercial agreements, technology contracts and intra-group service arrangements
- Provide legal support for ICT third-party, outsourcing and vendor arrangements, including DORA-compliant contractual provisions, audit rights, incident obligations, subcontracting, continuity and exit requirements
- Support regulatory applications, notifications, information requests and ongoing communications with the competent authorities
- Monitor developments under MiCAR and MiFID II
- Translate regulatory requirements into internal policies, instructions, controls, processes and implementation plans in collaboration with Compliance, Risk, Operations, Product and Technology
- Advise on token classification, product governance, conflicts of interest, client communications, complaints handling and conduct-of-business requirements
- Identify and manage legal risks, maintain clear decision records and escalate material issues with practical recommendations
- Contribute to Group-wide legal projects, governance matters and the continuous development of scalable legal processes and templates

What you bring along

- Law degree from an EEA, Swiss or other recognised jurisdiction; admission to the bar is an advantage but not required
- At least three years of relevant professional experience in financial-services regulation, fintech, banking, payments, investment services, crypto-assets or another regulated technology sector
- Sound knowledge of EU financial-market regulation; practical experience with MiCAR, MiFID II, DORA, outsourcing or payment-services regulation is a strong advantage
- Strong contract drafting and negotiation skills, with the ability to balance regulatory, legal and commercial considerations
- Ability to analyse complex regulatory questions, form a clear view and provide concise, implementation-oriented advice
- Confidence working directly with senior management, control functions, product owners, technology teams and external counsel
- Proactive, self-motivated and well-organised personality, entrepreneurial can-do attitude and highest level of integrity
- Ability to manage multiple demanding assignments in parallel with close attention to detail and deadlines
- Genuine interest in digital assets, blockchain technology and the development of regulated crypto financial services
- Fluent written and spoken English; German is a strong advantage
