

Bitcoin Suisse is the Swiss crypto-native pioneer and trusted gateway to crypto asset investing. As the leading crypto service provider in Switzerland, we operate across the most relevant crypto exchanges and provide brokerage, custody, staking and other crypto-related services at the forefront of technical innovation. We are as dedicated to our clients as we are passionate about cryptocurrencies and the underlying blockchain technology. We make things happen and have helped to shape the crypto and blockchain ecosystem in Switzerland as a driving force in the development of the 'Crypto Valley'. Bitcoin Suisse is headquartered in Zug with offices in Copenhagen, Vaduz and Bratislava and targets (ultra-) high-net-worth private individuals and institutional clients.

Software Engineer Trading

About the role

As a Software Engineer Trading & Brokerage at Bitcoin Suisse, you will part of the agile development team responsible for Bitcoin Suisse's core trading and credit platforms. This role lets you participate in the fast-paced crypto markets while collaborating with a team of professionals and crypto natives from various backgrounds, presenting an excellent opportunity for professional growth.

You will have the following responsibilities

- Consistent development and delivery of high-quality, low-defect, maintainable and solid code
- Providing the required documentation
- Unit testing of your own code
- Taking responsibility of the trading & brokerage systems you are working on which includes troubleshooting
- Create enterprise/banking-grade business applications which provide value to our various internal and to our thousands of external stakeholders
- Serve as a subject matter expert for everything in your domain (skillset and systems)
- Be part of a small and agile crypto asset trading-team

What you bring along

- 5+ years of professional experience in software development
- Proficiency in NET, C#, Azure, SQL, REST APIs and Microservices
- Experience with the Rust programming language, Fix-Protocol and trading systems
- Good understanding of Design Patterns, SOLID code, and principles
- You are a self-driven, responsible, and proactive team player
- Ability to communicate complex technical concepts in a clear, understandable way
- Fluent in English is required

What we offer

- **Expertise:** Work with crypto native experts
- **Culture:** Positive and supportive team culture that relies on common goals, ambitions and values
- **Activities:** Regular team events and activities
- **Ownership:** High level of autonomy and responsibility
- **Crypto Salary:** Option to get a part of your salary in Bitcoin and/or Ether
- **Fitness:** Sport over lunch activities
- **Location:** Office location in crypto valley right next to the train station of Zug
- **Workation:** Enjoy the flexibility of working across designated EU countries, with up to 10 days a year to combine work and travel

Please note that for this position, only direct applications with a valid working permit for Switzerland will be considered.
