

Bitcoin Suisse is the Swiss crypto-native pioneer and trusted gateway to crypto asset investing. As the leading crypto financial service provider in Switzerland, we operate across the most relevant crypto exchanges and provide brokerage, custody, staking and other crypto-related services at the forefront of technical innovation. We are as dedicated to our clients as we are passionate about cryptocurrencies and the underlying blockchain technology. We make things happen and have helped to shape the crypto and blockchain ecosystem in Switzerland as a driving force in the development of the 'Crypto Valley'. Bitcoin Suisse is headquartered in Zug with offices in Copenhagen, Vaduz and Bratislava and targets (ultra-) high-net-worth private individuals and institutional clients.

Solution Architect Trading

About the role

As a Solution Architect Trading at Bitcoin Suisse, you will play a crucial role in shaping the future of Bitcoin Suisse's core trading and credit platforms, ensuring that systems are fit for purpose. This versatile role lets you participate in the fast-paced crypto markets while collaborating with a team of professionals and crypto natives from various backgrounds, presenting an excellent opportunity for professional growth.

You will have the following responsibilities

- Actively develop and take responsibility for the architectural aspects of the trading & brokerage systems
- Manage the trading & brokerage systems features, responsibilities and contracts with users and other systems
- Engage in dialog with the trading team's business representatives, so business requirements can be implemented efficiently
- Consistently develop and deliver high-quality, low-latency, low-defect, maintainable and solid code
- Make sure the system is documented sufficiently
- Implement adequate automatic testing of the code base and functionalities
- Troubleshooting and bug fixing
- Be part of a small and agile crypto asset trading-team and expert within your domain

What you bring along

- Bachelor's or Master's degree in computer science or similar or equivalent professional experience
- At least 4 years or more of professional experience in the field of software development
- .NET, C#, Azure, SQL, REST APIs and Micro-services
- Rust is plus
- FIX-Protocol is a plus
- Domain knowledge of trading systems and market data is a plus
- Profound understanding of Design Patterns, SOLID code and principles
- We look for a self-driven, responsible, and enthusiastic team player
- Sharing your knowledge with your colleagues for a better performance is for you a must
- You explain complex issues in a simple way
- Good written and verbal English skills, German is a plus

What we offer

- **Expertise:** Work with crypto native experts
- **Culture:** Positive and supportive team culture that relies on common goals, ambitions and values
- **Activities:** Regular team events and activities
- **Ownership:** High level of autonomy and responsibility

Please note that for this position, only direct applications with a valid working permit for Denmark will be considered.
