

Bitcoin Suisse is the Swiss crypto-native pioneer and trusted gateway to crypto asset investing. As the leading crypto service provider in Switzerland, we operate across the most relevant crypto exchanges and provide brokerage, custody, staking and other crypto-related services at the forefront of technical innovation. We are as dedicated to our clients as we are passionate about cryptocurrencies and the underlying blockchain technology. We make things happen and have helped to shape the crypto and blockchain ecosystem in Switzerland as a driving force in the development of the 'Crypto Valley'. Bitcoin Suisse is headquartered in Zug with offices in Copenhagen, Vaduz and Bratislava and targets (ultra-) high-net-worth private individuals and institutional clients.

## Microsoft 365 & Azure Cloud Engineer

This position is available in Bratislava.

### What will you be working with?

- Oversee and optimize Microsoft Azure virtual infrastructure, Windows Servers, and Microsoft 365.
- Microsoft 365 Services including but not limited to Exchange Online, SharePoint Online, OneDrive, MS Teams.
- Regularly implement and maintain Infrastructure as Code (IaC) solutions using Terraform for efficient management and automation.
- Administer and enhance Active Directory (Entra ID and On-Prem), Group Policies.
- Oversee integration and operation of internally developed and externally procured software components.
- Collaborate on cybersecurity initiatives, including Microsoft Defender and Intune MDM, to secure endpoints, mobile devices, and company resources.
- Collaborate closely with development, security, networking, and management teams, providing mentoring and sharing technical knowledge.
- Automate tasks and processes to improve operational efficiency, creating detailed documentation to support knowledge sharing.
- Advise stakeholders on strategic technology decisions, system roadmaps, and solution identification aligned with long-term business objectives.

### Here is our wish list for what you can do already

- Bachelor's degree in Information Technology or completed relevant IT apprenticeship.
- Deep technical expertise in at least 5 of the following:
  - Windows Azure VM administration
  - Microsoft Entra ID and On-Prem Active Directory
  - PowerShell scripting or similar automation technologies
  - Administration of Azure Virtual Desktop
  - Windows DNS Administration
  - Windows File Server Administration
